## Infinity

## **Against the Current**

Rooftop tonight we are the skyline Collecting shooting stars wishes in jar All the hearts wide-awake and lonely Dream of where we are

Run so fast The wind can't catch us It's at our back The sun is falling Things don't last When you're young cause All you get is Just one chance to

Break away to beat the odds All along it's been a race against the clock Time won't wait were gonna leave Somewhere we'll find infinity We'll find infinity

Breaking hearts just for the hell of it Anything so we can feel dangerous Everywhere we go we leave shadows from the past We won't die young but we'll live fast

Run so fast The wind can't catch us It's at our back The sun is falling Things don't last When you're young cause All you get is Just one chance to

Break away to beat the odds All along it's been a race against the clock Time won't wait were gonna leave Somewhere we'll find infinity Find infinity Infinity

Break away to beat the odds All along it's been a race against the clock Time won't wait were gonna leave Somewhere we'll find infinity Break away to beat the odds All along it's been a race against the clock Time won't wait were gonna leave Somewhere we'll find infinity Somewhere we'll find infinity We'll find infinity
