

Humarrogance

Agathocles

Yet another song
about our human race
creating a planet of sadness
the products, these are we

Yet another warning
for the human family
Hummarogance is taking over
stabbing Earth to bleed

Exploit and pollute,
destruction, rape of woods
these are just a few actions
of intelligent humanhood,

Just think, yes do think
of what we are heading to
and act, yes react
for the sake of mother Earth
