

Is It Really Mine?

Agathocles

Go to school and cut your hair,
get a job, the state pays fair,
get a partner, get some kids,
make sure that you will fit,
What about my future?
Is it really mine?
What about my future?
Or is it the state's future?
Don't talk shit about a free choice,
'cause it's only the systems voice,
I don't wanna walk any alternative ways,
just give me the nihilistic way,
Yes, it's my future,
and I will use it,
Yes, it's my future,
to crack the state's future.
