

## Maze of Papers

Agathocles

Access to the social security system  
is a right for every citizen  
still many face problems to get in

Administration kills

Papers for this, papers for that  
mountains of files, piles of crap  
everyone's drowning in a paper-filled bath

Administration kills

State is laughing because they don't have to pay  
money from our taxes we have given away  
they make it difficult to make use of our rights  
they blind us with papes, our access denied
