

## Mincer

Agathocles

Chop, chop, chop away  
get the cancer away  
which is infecting our earth  
restricting us from birth

Capitalism is a disease  
on which the rich fucking feast  
it should be cut away  
into the mincer right away

Sick kingdom of the rich  
ain't life a fucking bitch  
as long as we behave  
we all will be enslaved
