

## More Patches Than Brains

Agathocles

Hey you, yes you, staring at the mirror, to check if you  
look cool

Hey you, yes you, sewing up those patches, to fit the HC  
school

Hey you, yes you, your jacket full of patches seems your  
"entrance card"

Hey you, yes you, DIY activist or a walking advertising  
board?

Your fucking dress code, is a fucking joke  
Wrapped up nicely, the content empty

More patches than brains  
A living painting in an empty scene
