

# Living in Darkness

Agent Orange

Look at me now  
I've got no reason to be like everybody else  
So dumb, so happy  
I like things that bite  
Things that creep at night  
Everybody's asking me what it's like down there  
The concrete floor is cold  
The walls are bare

(chorus)  
I feel safest being alone  
Living in darkness  
Living in a world of my own

I'm so selfish doing everything by myself  
I feel so cold  
I wanna live to be a couple thousand years old  
Ashes to ashes dust to dust  
I thought I knew somebody that I could trust  
Now I'm not so sure

(chorus)  
I feel safest being alone  
Living in darkness  
Living in a world of my own

One whole lifetime I'm never gonna last  
Unless I live until dying is a thing of the past  
And all these girls I know out turning boys into men  
I know I am never going down again  
Never again

(chorus)  
I feel safest being alone  
Living in darkness  
Living in a world of my own
