

# Hail to the Chief

Agent Steel

Denial  
I will accept all the hate you sell me  
Official  
I will believe all the lies you tell me  
I'm weak  
But you know what's right  
You know what's perfect for me  
I'll answer with weapons ablaze  
I trust you implicitly

New rules  
I like your rules - I'll gladly follow your lead  
Dress me  
In khaki and brown  
Those colors look strong on me  
Show me the enemy  
You say he lives right next door  
If you say so he dies

Now that the sky is burning  
Lead me to war  
Now with a future uncertain  
Lead us all to war  
After the bullet has sped through our heads  
After we sing songs in praise of the dead  
We'll sing hail to the chief  
Lead me to your war

No shame  
I feel no shame in becoming subservient  
Guide me  
Let me smell blood - the hound dog in me is hellbent  
Feed me  
A diet of fear - keeping me loyal to you  
I'm a child inside

Now that the sky is burning  
Lead me to war  
Now with a future uncertain  
Lead us all to war  
After the bullet has sped through our heads  
After we sing songs in praise of the dead  
We'll sing hail to the chief  
Lead me to your war

Paint the sand wet with blood  
And satisfy my lust  
Erase the history beneath our fear's corrosive rust

Exsanguinate the infidels and treat their wives as whores  
I only need one sad excuse  
You've led us to your war

True blue  
Trust me I'm true - red, white and blue  
Through and through  
Your foe

I'm not your foe - I've spent my life loyal to you  
Why me?  
Now I've got questions with your missiles pointing at me  
Too late - I die

Now that the sky is burning  
Lead me to war  
Now with a future uncertain  
Lead us all to war  
After the bullet has sped through our heads  
After we sing songs in praise of the dead  
We'll sing hail to the chief  
Lead me to your war
