

# Got Me Figured Out

Agnez Mo

Like a maid I can be difficult  
But baby you know how to solve it  
Like a student if I misbehaved  
Take me to the principal's office

Like a lens out of frame out of range  
You know how to keep focus  
Like a psychic all over my brain  
Boy I bet you didn't think I noticed

Got me figured out [4x]  
I'd like to put your love to the test before I give my love awa  
y  
Got me figured out [4x]  
I'd like to put your love to the test before I give my love awa  
y

Like a sport for beating out of flame  
May be we can start a fire  
You hit the trigger hold that you can name  
Just gave me I'm a moving target

Like a lens out of frame out of range  
You know how to keep focus  
Like a psychic all over my brain  
Boy I bet you didn't think I noticed

Got me figured out [4x]  
I'd like to put your love to the test before I give my love awa  
y  
Got me figured out [4x]  
I'd like to put your love to the test before I give my love awa  
y

You saw that through the very hard of me, baby I'm letting go  
And I have to run I have to run again  
And the part of letting go is to get the whole control  
We got chemistry some crazy energy baby take me I'm all yours

Got me figured out [4x]  
I'd like to put your love to the test before I give my love awa  
y  
Got me figured out [4x]  
I'd like to put your love to the test before I give my love awa  
y
