

# What They Called Soulmate

Agnez Mo

I see you standing here  
Watching you breathing my air  
Holding hands with someone else  
Feel this love that I bare

Why you said your love to me won't ever die  
when you know that it's only a lie  
why you made me trust  
that it love, not a lust  
days were gone, i'm still standing on

To love you is something that true  
no one can tell me that's what i can't do  
to want you forever just you  
to loose the thirst drink the water from you  
don't wanna deny our faith  
we are what they call soulmate  
the promise we made

Why you said your love to me won't ever die  
when you know that it's only a lie  
why you made me trust  
that it love, not a lust  
days were gone, I'm still standing on

They tell me the love we had  
shouln't happen by any reason  
but to feel once your love  
making my life more complete

Why you said your love to me won't ever die  
when you know that it's only a lie  
why you made me trust  
that it love, not a lust  
days were gone, I'm still standing on

To love you is something that true  
no one can tell me that's what I can't do  
to want you forever just you  
to loose the thirst drink the water from you  
don't wanna deny our faith  
we are what they call soulmate  
the promise we made

If i could do anything to show that i need you  
there's so many reasons i could never end baby  
i wanna show the whole world of how you once loved me  
i don't wanna cry no more feeling this love...wasted by you

To love you is something that true  
no one can tell me that's what I can't do  
to want you forever just you  
to loose the thirst drink the water from you  
don't wanna deny our faith  
we are what they call soulmate  
the promise we made
