

# Attack!

**Agnostic Front**

Attack! - You played the fool  
Attack! - No respect for you

We don't like your kind  
No honor, no pride

Attack! - Nothing you can do  
Attack! - You broke the golden rule

[Chorus]

You're losing face, you got no backbone  
No love for you, you proved you're fake  
Put yourself in this position  
Never give, only take

We will attack (3x)  
Attack! (2x)  
We will attack
