

## Come Alive

**Agnostic Front**

Killing's my business and business is fine Money's my interest,  
life isn't kind You know you can run but there's nowhere to hi  
de Payback's a bitch boy Now you're gonna die Hand me the contr  
act, I've got no remorse The more cash I get, the bloodier the  
worst You claimed their way out, life is up in flames How 'bout  
doin' it my way Beheaded or slain

[Chorus:] Hanging or lethal injection Gas chamber - take a last  
breath Firing squad, electrocute, we'll execute! More than one  
face of death

Kill 'em all, let God sort 'em out A soldier of fortune, I'll w  
ipe 'em all out Having no home, I have no shame I'll take a lif  
e, another victim in pain Try turning the tables or make it a f  
rame You can't snuff me out Because you're my game You know you  
're my target Your time stands still But no job's too tough I l  
ove to kill
