Come Alive

Agnostic Front

Killing's my business and business is fine Money's my interest, life isn't kind You know you can run but there's nowhere to hi de Payback's a bitch boy Now you're gonna die Hand me the contr act, I've got no remorse The more cash I get, the bloodier the worst You claimed their way out, life is up in flames How 'bout doin' it my way Beheaded or slain

[Chorus:] Hanging or lethal injection Gas chamber - take a last breath Firing squad, electrocute, we'll execute! More than one face of death

Kill 'em all, let God sort 'em out A soldier of fortune, I'll w ipe 'em all out Having no home, I have no shame I'll take a lif e, another victim in pain Try turning the tables or make it a f rame You can't snuff me out Because you're my game You know you 're my target Your time stands still But no job's too tough I l ove to kill
