

## My Life My Way

Agnostic Front

If I die before I wake, if I make it to another day  
This is my life, it's my destiny - so I will do it my way!

If I fail or I succeed, if I make it through another day  
It's my life, it's my destiny - so I will do it my way!

I've learned the hard way  
In this life, nothing came easy to me  
And never will I ever be fake, never will I follow  
That's just my personality

Can't look ahead without looking back  
All the hard times gave me strength  
I chose to follow my own path - my life my way!  
I found a place where I can be  
You can say it's destiny!  
Either way I know it's where I'm supposed to be  
This one's for the rebels!

We came up the hard way  
That was our life, that was our reality  
Never did we give up faith, some lead and others follow  
With us there's only one way to be  
We weathere every single attack  
And fought to keep my on the map  
Say what you want but the proof is there to see  
- my life my way!  
We helped unite never turned our backs  
We stayed the course never fell off track  
Or sold out for some bullshit industry
