

## No Fear

Agnostic Front

You've tried my patience to many times  
You've got too much to say  
Old soldiers never die  
They just fade away  
Intimidation and all those games  
You play so well  
They don't phase me I stand my ground I'll see you in hell  
Look into my eyes, when the end is near  
A reflection of yourself, living with no fear  
You've got the right to turn and walk  
You've got the right to stay  
In the end we all get fucked  
Things never change  
Who are you to run my life I think for myself  
And if you've got a problem with that I'll see you in hell  
No fear (2x)  
Intimidation your game No fear  
You think we'll fade away No fear (2x)
