

No War Fuck You

Agnostic Front

I'm so sick of these fucking wars
Rich get richer, poor get poorer
Nothing solved, nothing's changed
Now there's fucking hell to pay

Corporate government
Poisoned by greed
Get the fuck out

We're all victims in their game
Destroy the land, make 'em change
Send the innocent off to war
Don't even know what they're fighting for

[Chorus]

No war, fuck you!
