

## The Eliminator

Agnostic Front

Killing's my business and business is fine  
Money's my interest, life isn't kind  
You know you can run but there's nowhere to hide  
Payback's a bitch boy  
Now you're gonna die  
Hand me the contract, I've got no remorse  
The more cash I get, the bloodier the worst  
You claimed their way out, life is up in flames  
How 'bout doin' it my way  
Beheaded or slain

[Chorus:]

Hanging or lethal injection  
Gas chamber - take a last breath  
Firing squad, electrocute, we'll execute!  
More than one face of death  
Kill 'em all, let God sort 'em out  
A soldier of fortune, I'll wipe 'em all out  
Having no home, I have no shame  
I'll take a life, another victim in pain  
Try turning the tables or make it a frame  
You can't snuff me out  
Because you're my game  
You know you're my target  
Your time stands still  
But no job's too tough  
I love to kill
