Killing's my business and business is fine
Money's my interest, life isn't kind
You know you can run but there's nowhere to hide
Payback's a bitch boy
Now you're gonna die
Hand me the contract, I've got no remorse
The more cash I get, the bloodier the worst
You claimed their way out, life is up in flames
How 'bout doin' it my way
Beheaded or slain

[Chorus:]

Hanging or lethal injection

Gas chamber - take a last breath

Firing squad, electrocute, we'll execute!

More than one face of death

Kill 'em all, let God sort 'em out

A soldier of fortune, I'll wipe 'em all out

Having no home, I have no shame

I'll take a life, another victim in pain

Try turning the tables or make it a frame

You can't snuff me out

Because you're my game

You know you're my target

Your time stands still

But no job's too tough

I love to kill
