This is my church
This is my world
This is my temple
This is what you deserve

This is my church
This is my world
This is my temple
This is what you deserve

Reigning is useless
Paradise is a lie
Nothing is holy except of life
Forget what you learnt
Your faith shall return
Blasphemy is what you made of it

This is my church
This is my world
This is my temple
This is what you deserve

This is my church
This is my world
This is my temple
This is what you deserve

We will not judge you
