

For The Sick And Disturbed

Agonoize

What the hell is wrong with you? (2x)

The way you look, the way you are
You think you are a f**king star
The way you smile, the way you talk
I even hate the way you walk

You speak of truth when you lie
It's even fake when you cry
You make me sick, leave me alone
Wake up, get a life on your own

Fuck you, I just hate people like you (2x)

Your world is a lie
Your truth is not mine
Your words don't hurt
This one goes out to the sick and disturbed

This is when two worlds collide
The choice that we made, you decide
I'm not the one who eats the dirt
This one goes out to the sick - the sick and disturbed

Don't stare at me the way you do
Don't stare at me, I'm not like you
I'm not the freak, you've gone too far
The real scum is what you are

Fuck you and your lies
Shut up, it's an advice
Don't speak, don't speak to me
It's my life as you can see
Fuck you

Your world is a lie
Your truth is not mine
Your words don't hurt
This one goes out to the sick and disturbed

This is when two worlds collide
The choice that we made, you decide
I'm not the one who eats the dirt
This one goes out to the sick - the sick and disturbed
