

# Hate

## Agonoize

Inside your head is where I'll stay  
And I will never go away  
You'll go insane, you can't see me  
That's how revenge can really be

Your fear will grow from day to day  
It makes me stronger when you pray  
All I can feel is rage and hate  
To see you burn, I can not wait

You passed me on your way to crime  
But don't see, that world was mine  
Hate fills my head, I see red  
One day you'll lose your fucking head

4x Never again (again)  
Never again you'll hold a knife  
that's for what I really strive  
I wish that a deep red flood  
Will drown you in your own cold blood

4x Never again (again)

Never again you'll hold a knife  
that's for what I really strive  
I wish that a deep red flood  
Will drown you in your own cold blood

4x Never again (again)

4x Never again (again)
