

# I Against Me

Agonoize

Is it me? Is it really me? I cannot stand myself

Sometimes I hate myself for what i've done  
Sometimes I hate myself for who i am  
Sometimes I hate myself for what i've lost  
Sometimes I hate myself for what went wrong

Misguided by myself - full of fatal pride  
Always gone too far - always over the edge  
So full of arrogance - too blind to see the outside world  
Running in circles - so bored of life

I against me, me against myself  
I have become my enemy number one  
I against me, me against myself  
I have become my enemy number one

Feeling so useless - raping my mind  
Sometimes I hate myself for being blind  
Fighting myself - what will it be?  
Sometimes I hate myself for hating me  
Sometimes I hate myself for thinking twice  
Sometimes I hate myself without compromise  
Full of broken dreams - always on the run  
Crushed by myself - i come undone

I against me, me against myself  
I have become my enemy number one  
I against me, me against myself  
I have become my enemy number one
