

New World Disorder

Agonoize

Oh yes, our world is dying
But this is something we know for years
Oh my god, we're killing nature
so come on, tell me something new
Hell yeah, we destroy the environment
But less talking could be a start
Seems like we've stopped to be a part of this planet
hopefully there's life on mars

there's life on mars

hopefully there's life on mars

4x

let's waste this planet

2x

Welcome to a new world disorder
Terror and chaos are spreading worldwide
Welcome to a new low of evolution
the end of the world made by mankind

Come on, we pollute the air
But hey stupid you still go by car
I know we wiped out most species
Why worry? There are thousands more
We call ourselves the crown of evolution
Beware the fall might be long
No need to panic while all hell breaks loose
We will be dead before the great collapse

2x

Welcome to a new world disorder
Terror and chaos are spreading worldwide
Welcome to a new low of evolution
The end of the world made by mankind

4x

let's waste this planet
