

Stop The Clock

Agression

Get out of the house, take a vacation
Can't find a job, total frustration
Got no money, totally broke
Life is boring, there's no more hope

Don't tell me how I should live
You always take and never give
I'm myself that's what I wanna be
I wanna be me, fuck society

Stop the clock, stop the action
Get out if you don't like my reaction
I've tried your trips they're not for me
They make me sick, make me wanna heave

And I'm blowing chunks all over the place
Some might hit you in the face
But I'm myself that's what I wanna be
I wanna be me, fuck society
