

What Light (Never Goes Dim)

Aidan Knight

I'm not in love with the sound of my voice
I have been in love only one time
I see red shows, she is quiet the band is loud
Sharing beer from the can at the back of the crowd
Anyway, I've only been in love the one time

Sometimes we dance, you have convinced me to dance
This is a testament of your power to convince
I am convinced and continue to be convinced
Like I said, I've only been in love the one time

What light never goes dim...
