

# I've Had It

Aimee Mann

We made it down to New York  
With everything intact  
But as for getting back  
It was Boo who made the joke  
They don't give you any hope  
But they'll leave you plenty of rope

And Dan came in from Jersey  
He went to get the drums  
And if Buddy ever comes  
We can get it off the ground  
I hope someone's coming down  
Else I can't see hanging around

Oh, experience is cheap  
If that's the company you keep  
And a chance is all that I need  
And I've had it  
I've had it

So we all just started playing  
And then something strange occurred  
Not a person stirred  
Oh, it started out one way  
But it turned out to be okay  
And I felt that somebody should say

Oh, experience is cheap  
If that's the company you keep  
And before you know that it's free  
You've had it  
You've had it

Like most amazing things  
It's easy to miss and easy to mistake  
For when things are really great  
It just means everything's in its place

When everything was over  
And we loaded up the van  
I turned and said to Dan  
Dan, I guess this is our prime  
Like they tell us all the time  
Were you expecting some other kind?

Oh, experience is cheap  
If that's the company you keep  
But I'll never get that disease  
Cause I've had it  
I've had it  
I guess I've had it
