

Simple Fix

Aimee Mann

Here we go again, around and round
Here we go again, around and round
Well baby's passing for adults
Who voted up the catapults
And can't believe the end results
So here we go again

Here we go again, it's obvious
Here we go again, the two of us
We've just become our worst mistakes
The rattles off two rattlesnakes
The antidote that no one takes
So here we go again

But let's call a spade a spade
I'm going nowhere
I'm stuck in this hole, afraid to make a move
So once more around the track, another lap
And I think I can get it back, to where we prove:

There's a simple fix for our mess
It's a simple fix for our mess

Here we go again, back to the well
Here we go although we both can tell
We're just campaigning for the win
No prizes of adrenaline
We acted out, so it stays in
So here we go again

But let's call a spade a spade
I'm going nowhere
I'm stuck in this hole, afraid to make a move
So once more around the track, another lap
And I think I can get it back, to where we prove:

There's a simple fix for our mess
It's a simple fix for our mess
