Stupid Thing

Aimee Mann

Nothing was saving our day There was nothing to say But you said something anyway Claiming I stepped out of line Which forced you to leave me As if that idea was mine

Oh, you stupid thing Speaking of course as your dear departed Oh, you stupid thing It wasn't me that you outsmarted Oh, you stupid thing Stopping it all Before it even started

I bet you knew it would come That's just like you to sit back And just play it dumb One word of warning would help But that sacrifice was made Trying to save yourself

Oh, you stupid thing Speaking of course as your dear departed Oh, you stupid thing It wasn't me that you outsmarted Oh, you stupid thing Stopping it all Before it even started

Maybe that's just how I am To fall where I stand Or I'm weak for that kind of man One who looks helpless and brave But you turned into a coward I don't care for the parts you saved

Oh, you stupid thing Speaking of course as your dear departed Oh, you stupid thing It wasn't me that you outsmarted

Oh, you stupid thing...
