

# Take It Back

Aimee Mann

I'm taking it back  
I'm making a pact  
I will make you indispensable  
I spoke to myself  
Oh, I might as well  
And let you just be made sensible

Tell me your thoughts so I can love you in spite of them  
But now I'm happy if I never lose sight of them

I'll take it back  
I never said it did  
And that's a fact  
As of a month ago  
But now that the worst is over  
I can just take it back

Oh, lovers they come  
Another call from  
A phone booth somewhere in Lovertown  
It isn't so bad  
Those others I've had  
It isn't as if I'm losing ground

I'm getting better when I annex myself from you  
It oughtta be another country I'm moving to

I'll take it back  
I never said it did  
And that's a fact  
As of a month ago  
But now that the worst is over  
I can just take it back

I'd like to throw myself a million miles an hour  
I'd like to feel before the feeling goes sour

So take it back  
I never said it did  
And that's a fact  
As of a month ago  
But now that the worst is over  
I can just take it  
Now that the worst is over  
I can just take it  
Now that the worst is over  
I can just take it back
