

The Metal Cult

Air Raid

Friday night
our mind is free
we're gonna burn
this town alive

One for all
all for one
the crushing beat
is on our side

Walking down the alley
searching for the dark
nothing is sacred
strike like a shark

Feel the metal wind
screaming all around
made for the strong
break them down

Sail away
with the metal wind
Sail away

Spread the word
it's a metal night
you better take a stand

Time to rule
leave the cage
joined as one
to break the chains

Make it to the top
live for the night
always in front
at the speed of light

Feel the metal wind
screaming all around
made for the strong
break them down

Sail away
with the metal wind

Sail away

Join the metal cult
feel it in your veins
let your soul
run free

Walking down the alley
searching for the dark
nothing is sacred
strike like a shark

Feel the metal wind
screaming all around
made for the strong
break them down

Sail away
with the metal wind

Sail away

Sail away
with the metal wind

Sail away
