

Feel for Your Love

Air Supply

I've got money to burn
I've got life on the avenue
I've got nothing to learn
I just do what I want to do
I've got places to go
I've got lines on the telephone
I've got nothing to show
For all this time that I spend alone
But if I wanted someone, someone to care
And if I needed someone,
Would you be there
I want to look into your eyes

And get a feel for your love
(where would I be)
I've got a feel for your love
(where would I be)
I've got a feel for your love
(where would I go)

I have something to give
I got a feeling that I never knew
I have a reason to live
And all I want is to be with you
If I gave you my heart
Would you take what I have for you
I have fallen so hard
And I will do what you want me to
And now I'm wanting someone
Someone to share
And if you are that someone
Will you be there?
So when I look into your eyes

And get a feel for your love
(where would I be)
I've got a feel for your love
(where would I be)
I've got a feel for your love
(where would I go)
