

Strangers in Love

Air Supply

Strangers in love
must a star fall from the sky
It's stranger than most
and stranger when we try
To understand it all,
why we fall,
As strangers in love,
Strangers in love.

Straight from the farm
and a world apart and ready for
Someone to take her arm,
she's never seen a movie
What an innocent face,
what an innocent place.

It's natural, it's an easy thing to do
Natural, it's an easy thing to do.

Strangers in love and a star fell from the sky
Don't know which way to turn,
don't know which boat to burn
Don't know which way to turn,
don't know which boat to burn.

Strangers in love
