

Tell Me of Spring

Air Supply

Come to me at Spring
Every little thing
Just makes me want you so

I, I'm like the worn leaf
Blowing to and from
Until I find my home

You appear, I'm alive,
Forget my fears, forget all the reasons
To hide my love inside.

You, you brought back my love,
(What you do to me)
You brought back my life
(What you do to me)
You brought back my everything
(when you say to me how much I need ...)

You, you brought back the light,
(What you do to me)
You took back the night
(What you do to me)
And gave me everything
(when you say to me how much I need ...)

I fall to the ground
Send my prayer to the clouds
There are no choices

Hear the silence of sound
Lay your head down
And drink from the voices

You appear I'm alive
Forget my fears, forget all the reasons
To hide my love inside.

You, you brought back my love,
(What you do to me)
You brought back my life
(What you do to me)
You brought back my everything
(when you say to me how much I need ...)

You, you brought back the light,
(What you do to me)
You took back the night
(What you do to me)
And gave me everything
(when you say to me how much I need ...)

You, you brought back my love,
(What you do to me)
You brought back my life
(What you do to me)
You brought back my everything

(when you say to me how much I need ...)

Come to me at Spring
Every little thing
Just makes me want you so
