The Earth Is

Air Supply

There's a man with the smallest of worlds in his hand And a tear fills his eyes as he tries to hang on Holding his world together

There's a girl in the other half of the sky And she's wondering why her planet should sigh Don't you want me 'round forever

The earth is too small to be divided Sunrise, moonfall, deep in the heart A part of everyone

And we can't wait anymore, the time has come And those who need something more will feel the sun We're sharing one

The earth is too small to be divided Sunrise, moonfall, deep in the heart A part of everyone

And we can't wait anymore, the time has come You've got your foot in the door Get through somehow, break through somehow

The earth is too small to be divided Sunrise, moonfall, deep in the heart A part of everyone
