

# Who Will Love Me Now

Air Supply

Who will love me now  
Who will love me now ...

Well I tried to give up  
Walking the streets when I was with you  
Snug as a bug in a rug  
Never been so alone thinking about you

Who will love me now  
Who will love me now ...

Trying on my own  
But living alone is one thing I can never do  
I could end it all now  
But I'm not that crazy

Who will love me now  
Who will love me now ...

Oh I need all the love  
that you once used to give me  
Words are never enough  
Now you can't be with me  
I need all the love  
But who will take my hand and show me how  
Who will love me now

Being home by myself  
Believing so much you'd walk through the door  
And tell me you think I'm a fool  
But you won't do that now  
You've done it so often

Who will love me now  
Who will love me now ...

Trying on my own  
But living alone is one thing I can never do  
I could end it all now  
But I'm now that crazy

Who will love me now  
Who will love me now ...

Oh I need all the love  
that you once used to give me  
Words are never enough  
Now you can't be with me  
I need all the love  
But who will take my hand and show me how  
Who will love me now
