

Napalm Love

Air

I'm falling in love
I'm falling down, falling down
Down on the ground
I'm falling in love
I'm falling down, falling down
Down on the ground

How strange is your love
How strange is your love
How warm is your love
How tough is your love

I'm hitting the ground
It's hurting me, hurting me
It's hurting my love
I'm hitting the ground
It's hurting me, hurting me
It's hurting my love

How strange is your love
How strange is your love
How warm is your love
How tough is your love

I'm burning my love
I'm burning alive, burning alive
Down on the ground
I'm burning my love
I'm burning alive, burning alive
Down on the ground

How strange is your love
How strange is your love
How warm is your love
How tough is your love

How strange is your love
How strange is your love
How warm is your love
How tough is your love

I'm falling in love
I'm falling down, falling down
Down on the ground
I'm falling in love
I'm falling down, falling down
Down on the ground

How strange is your love
How strange is your love
How warm is your love

How tough is your love
How tough is your love
How tough is your love
How tough is your love
How tough is your love
