

# Cradle to the Grave

Airbourne

Let's go

You tell me how to live my life  
But you don't live your own  
Your bark is louder than your bite  
Better leave me alone  
It's war

This is why I choose to fight  
Drink all day and rock all night

From the cradle to the grave  
From the cradle to the grave  
I will never be a slave  
From the cradle to the grave  
Get outta my way oh yeah

It's like you're six feet under ground  
Coz you're rotten to the core  
You know I'm never backing down  
It's a generation war  
It's war

This is why I choose to fight  
Drink all day and rock all night

From the cradle to the grave  
From the cradle to the grave  
I will never be a slave  
From the cradle to the grave

Get out of my way

This is why I choose to live  
Giving all I've got to give  
From the cradle...  
To the grave

From the cradle to the grave  
From the cradle to the grave  
Don't tell me how to live my life  
Coz you don't live your own  
Live you own

Your bark is louder than your bite  
Better leave me alone

From the cradle to the grave  
From the cradle to the grave  
I will never be a slave  
From the cradle to the grave

From the cradle to the grave  
From the cradle to the grave  
I will never be a slave  
From the cradle to the grave
