

# Let's Ride

Airbourne

Alone out in the city  
On the wrong dark side of town  
Man she's lookin' pretty  
And the sun is goin' down

I said who's that knockin' at my door  
Wearing soft silk lingerie  
You got your look from a book at a weekend sale  
And now you wanna play

I said what's up baby?  
Why don't you come inside?  
The big bad wolf is feelin' good  
He's gonna make you feel alive

Let's ride like dogs in heat  
Let's ride just you and me  
Let's ride in between the sheets  
And never stop till' the sun comes up  
Let's ride

Well we rode all through the night  
Like we never had before  
Sweat poured from our bodies  
As the bed bounced off the floor

She said don't stop honey, take me there  
Do it to me all night long  
I said I ain't gonna stop till I blow the lot  
So you better keep holding on  
She said harder baby  
Don't ever slow down  
I said don't worry honey I'm the big bad wolf  
And I ain't gonna let you down

Let's ride like dogs in heat  
Let's ride just you and me  
Let's ride in between the sheets  
And never stop till' the sun comes up  
Let's ride

What the hell you waiting for c'mon baby  
Let's ride like dogs in heat  
Let's ride just you and me  
Let's ride in between the sheets  
And never stop till' the sun comes up  
Let's ride, ride  
Let's ride, ride  
We're gonna ride, ride  
C'mon let's ride, ride  
Oh yeah we're gonna ride, ride

C'mon baby  
C'mon girl  
C'mon baby  
What are you waitin' for?
