

# No One Fits Me (Better than You)

Airbourne

You caught my eye in that leather and lace  
We hitched a ride straight to your place  
You killed the lights and the room went black  
You threw me down, took the skin right off my back

But that's ok I love the pain coz

No one fits me better than you  
No one fits me better than you  
No one fits like the way that you do  
No one fits me (fits me) better than you

We've come and gone then we do it again  
All night long round and round the bed  
We got the rhythm and the groove is tight  
You chew me up spit me out and take another bite

That's ok I love the pain coz

No one fits me better than you  
No one fits me better than you  
No one fits like the way that you do  
No one fits me (fits me) better than you

I'm runnin' dry, I'm outta breath  
You satisfy every inch you get  
You are the best woman I've ever had

No one fits me better than you  
I said no one fits me better than you  
No one fits like the way that you do  
No one fits me (fits me) better than

No one fits me better than you  
No one fits me better than you  
No one fits like the way that you do  
No one fits me (fits me) better than you

We're not done, not yet  
Morning comes and we're comin' again  
Like a freight train goin' off the tracks  
With your long sharp nails  
Still hangin' of my back

I say no one fits me  
No one fits me  
No one comes close  
No one else will do  
No one fits me (fits me) better than you
