

Right Now

Airfare

If you know what you want and you see it get it right now, right now

whoa, we don't get caught no
never gonna be taught no
you kinda like that don't ya
you wanna take some for yourself
you wanna feel it in ya
you gotta taste it for yourself

now i'm lyin' on my back and i am home again
when i feel it in my bones, i can see my friend
i can feel it in the air and in the atmosphere
on a cloud when rain comes fallin' here

If you meet me in the water, we can make it to the shore
we will swim together, and feel the way we did before

now i'm lyin' on my back and i am home again
when i feel it in my bones, i can see my friend
i can feel it in the air and in the atmosphere
on a cloud when rain comes fallin' here

and it's flowin' in my blood like an enemy
just like a monster comin' out of inside of me
i can hear it closin' down in the dead of night
the shivers that i get make me feel alive

If you meet me in the water, we can make it to the shore
we will swim together, and feel the way we did before
If you know what you want and you see it get it right now, right now
