Airship

Opaque this skin it won't let you in
And I can't be sure of anyone anymore
Long hair covers eyes I wish to always hide
And I won't see this life for anyone anymore

When my times comes
How does this all end?
Leave my body for the soil to mend

Stop don't wait it hurts when it breaks
And I won't leave this place for anyone but myself
My soul wouldn't keep, it left without me
If only I could say that I'm sorry

When my times comes
How does this all end?
Leave my body for the soil to mend

When my times comes
Who will be my friend?
Please stay with me 'til the very end

When my times comes
How does this all end?
Leave my body for the soil to mend

Opaque this skin it won't let you in
And I can't be sure of anything anymore
