

Showstopper(if I Had You)

AJ Rafael

You make my dreams come true,
And I love all the small things that you do,
Like Blink-182 and,
You make my days go better,
And the way that the sun is shining through,
Girl, it's all because of you.

And I know it's tough right now but we'll get it together,
And just know that I am here through all kinds of weather,
And I won't ever leave your side, day or night or whenever,
But right now I just gotta say, I just gotta say that you're a...

Showstopper, you are so hot,
And I can't, get you off my mind,
Showstopper, you're a, a jaw dropper,
When I see you in the lights, you make everything alright,
And I know that I'd be fine, if I had you.

You make me wanna dance,
Cause I'm happy, but just know that I can't dance,
So I'm sorry in advance,
And you make the stars shine brighter,
And the way, that the moonlight hits your eyes,
Makes me wanna be your guy.

And it's tough right now but we'll get it together,
And just know that I am here through all kinds of weather,
And I won't ever leave your side, day or night or whenever,
But at this moment I just gotta say, I just gotta say that you're a...

Showstopper, you are so hot,
And I can't, get you off my mind,
Showstopper, you're a, a jaw dropper,
When I see you in the lights, you make everything alright,
And I know that I'd be fine, if I had you.
If I had you.

You make me feel like I'm flying,
And no one can stop me from feeling,
The way I do now, there's no denying,
That you got me going, now I'm falling.

Showstopper, you are just so hot,
And I can't, get you off my mind,
Showstopper, you're a, a jaw dropper,
When I see you in the lights, girl, you make everything alright,
And I know that I'd be fine, if I had you.
If I had you.

Showstopper, you're a, a jaw dropper, when I see you in the lights, you make everything alright, and I know that I'd be fine... If I had you
