

# Be The Hero

Akashic

Changes are what we need  
No matter how much it hurts  
Corners to find new ways  
- and find a way for peace  
Revolution is in the air

Day by day we can be the heroes  
And try to make a safe world  
Everyday a new hope will remind us  
It's time to open our eyes  
day by day we can be the heroes  
And breathe the air of heaven

Marching out on the streets  
Spreading some peace around  
Hug all your friends right now  
- and make yourself alive  
Revolution is in our arms

Day by day we can be the heroes  
And try to make a safe world  
Everyday a new hope will remind us  
It's time to open our eyes  
day by day we can be the heroes  
And breathe the air of heaven

Let's forget the anger here  
Say you'll never lie  
You don't wanna see  
Don't let your brother die

Let's forget the hatred near  
Keep yourself alive  
Say you wanna live  
Don't let your mother cry

Day by day we can be the heroes  
And try to make a safe world  
Everyday a new hope will remind us  
It's time to open our eyes  
day by day we can be the heroes  
And breathe the air of heaven

Let's forget the anger here  
you don't wanna see  
Don't let your mother cry
