Heaven's Call

Hasty years leave behind Only dust in my life Now I'm not in my shoes anymore I'm floating higher

I fell in a maze and survived And I escape from the limbo I saw the light, it guided me Silence invade a temple A farewell was heard in the dome of the sky

The heaven's call is not a fantasy, It's a sign saying liberty So let me fly, let me see the paradise - All my chance is here

Then, my soul emerge from a dream Hence the days are not still The sand will turn in gold The mistery is over Oh! The dusk is frightening me My hands are freezing and my heart is cold And the sphinx looks me with red eyes

I fell in a maze and survived And I escape from the limbo I saw the light, it guided me Silence invade a temple A farewell was heard in the dome of the sky

The heaven's call is not a fantasy, It's a sign saying liberty So let me fly, let me see the paradise - All my chance is here

I'm running light Over Seas, over lands Glowing stars I can reach with eyes And see how close I am I'm floating higher I can hear your voice my friend When we meet again we will complete our lives

The heaven's call is not a fantasy, It's a sign saying liberty So let me fly, let me see the paradise - All my chance is here
