

## My Passion

Akcent

I still got feelings you are my passion  
you are the one for me  
I still got feelings you are my passion  
you are the one for me

can you, can you hear me say  
when I'm moving closer  
you keep going away  
'cause you're my guilty pleasure  
and you caught me so tight  
I wanna love you always  
let's smile into the night

don't let go  
don't run away love  
I still got feelings you are my passion  
don't let go  
don't run away love  
you are the one for me  
[x2]

can you, can you see the flame  
that burns inside my body  
everytime you are here  
'cause you're the one I dream of  
everyday and night  
don't give away my feelings  
and come into my life

don't let go  
don't run away love  
I still got feelings you are my passion  
don't let go  
don't run away love  
you are the one for me  
[x2]

don't let go  
don't run away love  
I still got feelings you are my passion  
don't let go  
don't run away love  
you are the one for me  
[x2]
