Night And Day

I can tell u how I feel about you night and day. (How I feel about you, oh-oh-oh) I can tell you how I feel about you night and day. (How I feel about you, oh-oh)

I love you more in the rain or shine and making love in the rain is fine a love so good and I call it mine. Love is blind.

If you love me, please let me know. Don't hide the feeling, just let it show. A feeling so deep that comes within what kind of love am I in?

If you and I were one the love we share would be so fun. Just take my hand and you'll see that we'll take off into another world away. (ooh, oh-oh)

I can tell you how I feel about you night and day. Night and day, night and day, night and day....

Al B. Sure!
