

Everything's OK

Al Green

I wanna, I wanna come back home baby
Out here baby, everything is wrong baby
In a dog-eat-dog world
Ain't nothing safe, baby
You've got mine
I've got yours
Everything's ok

I started out poor baby
Everybody knows you never told baby
I got what it takes
With my crazy ways
You came along
And started this song
Everything's ok

Okay, okay, everything, everything is ok, baby
Okay, okay, everything, everything is ok, baby
You came along with your crazy ways
You came along and started this
Everything's ok

Okay, okay, everything, everything is ok, baby
Okay, okay, everything, everything is ok, baby
(repeat and fade)
