## **Going Away**

Al Green

Life can be hard if you live in vain Trials can't be hard if you depend on God I will not worry, I won't be afraid of hope I'll look to Jesus who says, 'I'm the Way'

Come and go with me to my Father's house Let's go, let's go All the road is free, come and go with me Let's go, let's go, I'm going away, I'm going away

It's nothing but peace When you're gone away It's nothing but joy When you are gone away

Let me tell you You'd better go this way, if your woman see the day Let her go, let's go All the road is free, come and go with me Let's go, I'm going away, I'm going away

Hey, hey, [?] And I won't be there, I'm going away I don't know about you I find you're nothing but joy, I'm going away

We'll pack my bags up With the soul that I've had, I'm going away Nothing but love over there Sometime I happen to [?] I'm going away

I'm still way by myself And I say, I'm going away I still wait by myself As I, I'm going away

I'll tell you one thing
There's nothing but love and joy
[?] I'm going away
All the way

I have to love you I'm going away, I'm going away Jesus' coming back to take me by the hand To lead me to the land, I'm going away
