

# Gotta Find a New World

Al Green

As I look at this world  
You know I'm beginning to see  
That this is not the world  
That god intended to be

I got to find a new world  
Where the people understand  
How to treat one another  
Through out the land

Everybody pack up and go with me

I got to find a new world  
Where the people get along  
Where everybody loves each other...

I wanna hear people say... can I help ya  
I got to hear people say... come on in  
I wanna hear people say... is there anything I can do for you  
I got to hear people say... let me help you

I wanna be able to walk when I wanna  
I got to be able to talk when I wanna  
I wanna be able to love when I need it ya...
