

Smile a Little Bit More

Al Green

I smile
my heart
disappears
oh smile & move
your burning feet
so just smile a little bit more, a little bit more
hey we just smile a little bit more, a little bit more

oh dear
can bring
sudden rain i can think yea
our turn to see the winds change
soo smile
all you gotta do is just smile

in my heart i see the winter
making me do over but iiiii i don't mind
i just smile a little bit more a little bit more
